Friday, February 16. 1705.

From the Amst. & Leiden Gaz. dated Feb. 19. & 20.

Rome, January 31.

THE 25th being the Feast of the Conversion of St. Paul, the Pope accompanied by a great Number of Cardinals and other Prelates, went to the Church of that Saint, which is situate without the City. The next day an extraordinary Congregation was held by his Order, in the Palace of Cardinal Ferrari, to consider of the Dispensation desir'd by Count Staremberg a German, to Marry his Sister in Law: But 'tis not known yet what Resolution they came to. The Queen Dowager of Poland is preparing to set out from hence in a few days, with a Retinue of 30 Persons, to go to Gratz in Stiria. Most of the Cardinals have already waited on her, and wish'd her a good Journey; and the Pope has sent Order to all Governours of the Places in the Ecclesiastical State through which she may pass, to entertain her at his Expence and pay great Honours to her. The Pope has caus'd a Bull to be publish'd, by which he commands all the Bishops of Italy and the Neighbouring Islands, to cause the Bells to be toll'd every Evening a Fortnight together, throughout their respective Diocesses, to call the People to Church to beg of God to preserve the Roman Catholick Religion, which he pretends is in great Danger at this juncture of Time; and he has promis'd plenary Indulgence to such as shall perform the Devotions prescrib'd them on this Occasion. The Advices we have receiv'd from Naples of the Earth's having been felt to heave there puts us in apprehension of an Earthquake here: In this apprehension the Publick Prayers are redoubled, and all Diversions have been forbid anew. Signior Caunitz has receiv'd the Compliments of Condolence of the Court on the Death of his Father, the News of which was brought to him a few days ago; and we hear he has receiv'd Orders from the Court of Vienna, to take upon him the care of his Imperial Majesty's Affairs here, in the Absence of the Count de Lamberg, who is preparing to depart from hence.

From the Leiden Gazette, dated Feb. 17.

Basil, Feb. 8. The General Diet of the Cantons continues assembled at Baden; and in all likelihood will not break up very quickly, because all the Deputies are resolv'd, not only to terminate the Affair of Tockenbourg, in which they have already made some Progress, but likewise to come to a Determination about the new Imposts laid on the Salt with which they furnish themselves from the Empire. In which latter Resolution they are unanimously agreed; and being satisfied that France will not be wanting to furnish them with all the Salt they shall have occasion for, in case they do not take any from Bavaria and Tyrol; they insist peremptorily that the new Imposts in Question be abolish'd, and to that Purpose have commission'd Deputies to make a Remonstrance to Count Trautmanndorf, the Emperor's Ambassador; but his Excellency has not yet given them Audience,

being very much indispos'd of a Catarrh. One Hogger of St. Gall, has already furnish'd the French with 8000 Horses for remounting their Cavalry; and is using his utmost Endeavours to furnish them with 4000 more in two Months time; To which End he employs Men to attend all the Fairs and Markets in Switzerland.
